## Kwik Change 2000 Series

Through the art of formed and perforated metals you can convert the simple strip or industrial fixture into an attractive, functional luminaire. Perforated Metal is the cornerstone for some of today's most innovative lighting designs. There are options in material, shapes, finishes, and applications providing an amazing number of unique designs. Direct or Indirect lighting, or a combination of both, give you a creative solution for nearly any application.

### Perforated Basket

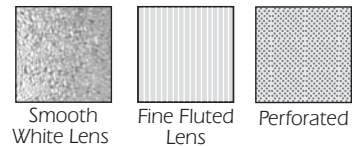

Perforated metal reflectors and baskets are made of cold rolled steel treated with rust inhibitor. Perforated metal parts are post painted with a durable baked polyester powder coat. Each piece is formed by our state-of-the-art multi-radii machine for consistency.

### Fine Fluted Basket

The acrylic basket option provides greater light output while diffusing light for a glare controlled look. Consistency is the key to a quality design.

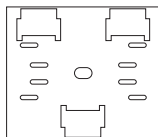

#### Basket Options

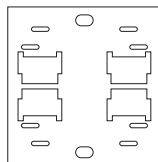

The KC2000 Series provides a new retrofit option that will surprise you. These versatile kits give an updated urban look to any environment, through the art of perforated metals and modern lines. These easy-to-install kits accommodate different mounting configurations, depending on your needs. No matter which model you choose, you are guaranteed a simple, beautiful and cost effective solution with KC2000.

### Socket Conversion Kits

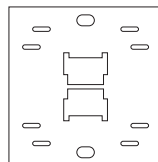

Convert a 4-1/4' Strip Fixture into one or two lamp T8. 4' and 8' Kits available.

## KC2175 Reflector and Lens Combination

KC2175 White 4' Reflector with Perforated Basket

# URBANUS

## KC2175 Perforated Reflector and Perforated Basket

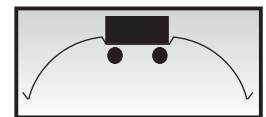

KC2175 Perforated White 4' Reflector with Perforated Basket

Modular kit provides reflector and basket options to achieve a reflected luminaire perfect for open plan office spaces and conference rooms where task surfaces are the focus. By choosing from reflector types and basket materials, the lighting designer controls the light intensity. The Urbanus can be used to retrofit a flush-mounted strip or a hanging strip.

## Starting With a Simple Strip or Industrial Fixture...

The KC2000 Series offers several different configurations to help you create the perfect design. Using a manufacturer's 4 foot, 2 lamp strip fixture you can create the style of fixture for any application. Listed below are just some of the designs you can create.

KC2175 White 4' Reflector with Fluted Lens

KC2175 Perforated White 4' Reflector with Fluted Lens

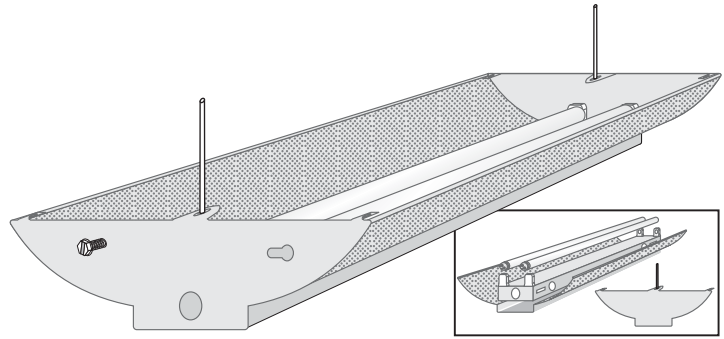

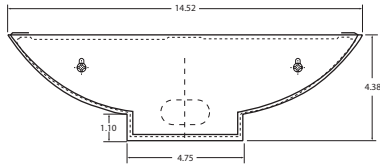

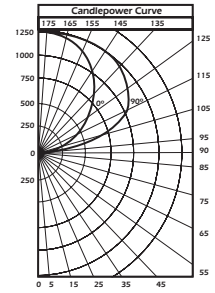

## KC2225 Indirect with Perforated Basket

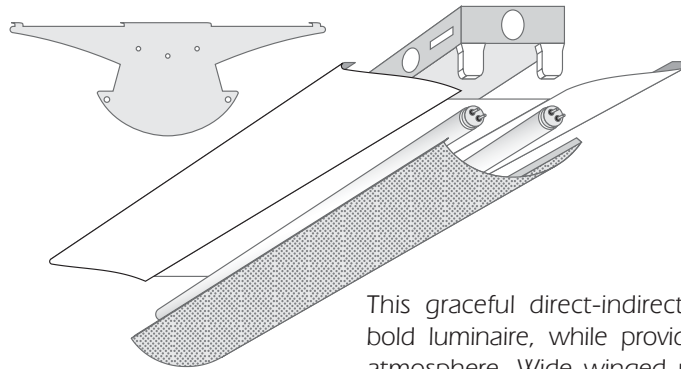

# ALVEUS

Sophisticated styling in an indirect retrofit luminaire. The Alveus offers a wide, even indirect illumination, providing extraordinary visual comfort in the contemporary open office environment, with styling to enhance a lobby or highlight a public area. Perforated reflector panels with soft white in-lay provide a distinctive, contemporary look and allow an identifiable source of light for visual comfort.

## KC2300 Direct / Indirect with Perforated Basket

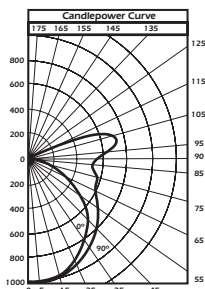

# PEGASUS

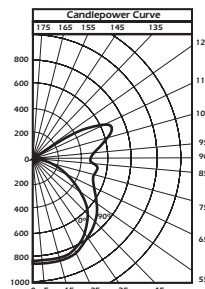

This graceful direct-indirect retrofit creates a bold luminaire, while providing a comfortable atmosphere. Wide winged reflectors effectively direct light, while adding a soft glow and presence to the fixture. The perforated basket and soft white diffuser shield lamp glare, while the sloping reflector provides a gentle up-lighting effect creating a distinctive look for task or general applications.
