

SKYE Series – 0-10V Dimmer Wallstation

Catalog#	Prepared by
Project	Date
Comments	Type

Overview

The SKYE 0-10 Volt Dimmer provides full-range classic linear-slide dimming for 0-10V compatible dimmable light sources. These units are ideal for light commercial applications and are compatible with decorator style devices and wallplates. The preset "ON/OFF" switch automatically returns controlled light(s) to a preset level without disturbing the brightness level. The device is designed for both Single-pole (one location) and 3-way (multi-location) applications.

Features

- Preset feature allows user to return to previous light level when turning lights ON
- Integrated full-slide control for easy, precise operation
- Can be wired as Single-pole or 3-way
- Neutral is not required for installation of device
- Adjustable high-level trim setting for optimal lamp compatibility

Specifications

Switch Type	Single-pole and 3-way
Switch Relay	0-10 VDC: 200mA
Dimming Control Power	
Rating	120 VAC, 60 Hz; 277 VAC, 60 Hz
Light Intensity Control	Full-range, continuously variable dimming
Dimming Performance	0-10V dimming
Power Failure Memory	Light returns to same level prior to power interruption
Lamp Ratings	1200W @ 120 VAC 1660W @ 277 VAC
Wiring Type	Back & side wiring terminals and 0-10V wire leads
Flammability	Meets UL 94 requirements, V2 rated
Temperature	-4°F to 158°F (-20°C to 70°C)
