SPECIFICATIONS

The Matrix is a multiple adjustable recessed downlight designed for a variety of different lamp types. Suitable for retail applications or any areas where clusters of various lamp types are required. Lamp combinations are available with any lamps listed below.
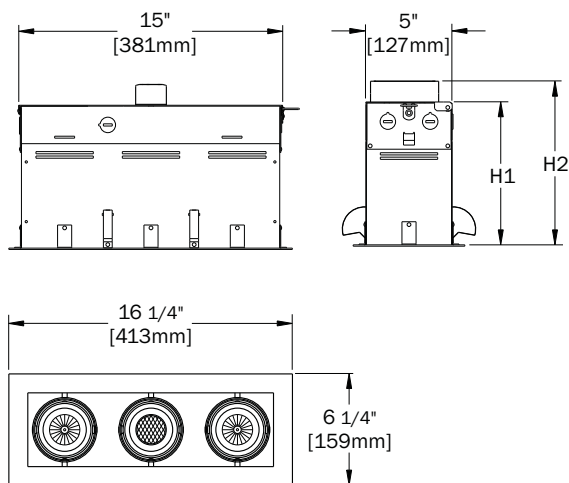

♦ Adjustable downlight for effective use in retail environments
♦ Unique clamping mechanism securely fastens the luminaire into place
♦ Lamp sits in a free floating cradle adjustable on a dual axial system which allows for a full 360° adjustability in the horizontal direction and up to 30° adjustability in the vertical direction
♦ Each lamp is independently adjustable and are suitable to accept an optional glass lens (if required)
♦ Metal halide lamps (by others) are powered by integrally mounted electronic ballasts.
♦ Low voltage lamps (by others) are powered by integrally mounted electronic low voltage transformers
♦ Non electrical baseplate assemblies are available for shipping in advance with 16" hanger bars and a safety cable for luminaire mounting
♦ Approved for non I/C ceiling types including air handling plenums, plaster, gypsum board and accoustical ceiling tiles
♦ Damp location listed
