

Catalog Number	ERF 402 12 RS50-B		
Notes	2 HEAD -NEED BATTERY UNIT TO RUN FIXTURE.	Type	CSEM

Description:

The ERF Series is a single, double, or triple remote head assembly to be powered from various master battery packs (ordered separately). All ERF heads are fully adjustable and lockable and easily mount to a standard 4" round, recessed or surface "j" box.

ERF Heads:

Specify single, double, or triple remote assembly. Head units attached to a 4 7/8" molded finish plate. Finish plate interfaces with standard 4" round, recessed, or surface "j" box. Heads and finish plate are injection molded using high impact, mar resistant engineering grade thermoplastic. Lamp heads can be adjusted 358 degrees for flexible coverage. Lamp heads can be locked in place after aiming.

Mounting Plate:

All units supplied with a 5" universal mounting plate having 3 knockouts for mounting the lamp heads in center or outside positions.

Finish:

Standard finish for Lamp Heads and mounting plate is white. Black and Grey finish is available.

Listing/Code Compliance:

- UL 924 listed
- Life Safety NFPA 101, NEC/OSHA
- NYC MEA/BEC, Local Laws 16 & 41.

Warranty:

- LED lamps, 25 years
