

HaloXen™

PRISM® PAR36 12 Volt

Energy Efficient

Save up to 33% in energy costs compared to standard PAR36 lamps

Technical Data

20, 35 and 50 watt

12 volt

Halogen/Xenon gas mix

Multi-Purpose base can be used on screw or slip-on terminals

Fire-sealed lens

High lumen maintenance - over 90% throughout lamp life

Long Life

5,000 Hours Average Rated Life

Benefits

White light

Fire-sealed lens prevents water leakage

Long life - as much as twice the rated life of incandescent PAR lamps

Decrease in labor costs associated with re-lamping

20 watt lamp allows increased flexibility in lighting design

Applications

Office buildings • Hospitals • Landscape lighting
