H3 TRIMS

A NEW DIMENSION IN RECESSED LIGHTING

Recessed lighting has always been popular for its ability to deliver effective lighting while maintaining an unobtrusive ceiling appearance. The development of small aperture lamps such as the low voltage MR16 and line voltage GU10 has made possible a family of ultra-compact recessed trims. The Halo H3 trims deliver effective illumination yet they have a low impact presence that does not intrude on the main decorating elements in a space. The trims feature meticulous Die-cast or machined detailing and they can accommodate either low voltage or line voltage lamps depending on the housing used. The 3" aperture H3 trim rings also match the design and style of Halo 4" and 5" trims allowing a coordinated ceiling appearance.

Round

Eleven round trim styles

Square

Three square trim styles

Deco

Five decorative glass trim styles

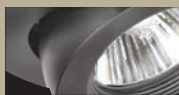

Finishes

White/Black Baffle

White/White Baffle

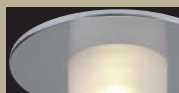

Black/Black Baffle

Antique Copper

Tuscan Bronze

Satin Chrome

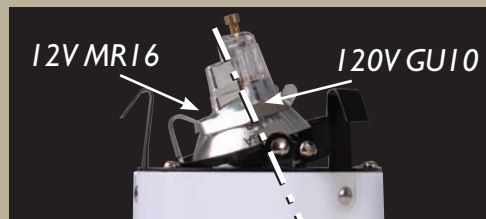

Satin Nickel

Polished Chrome

Up to eight color finishes available

All H3 trims accept either 12V MR16 lamps or 120V GU10 lamps. Most trims allow lamp to tilt 15° to 35° for precise aiming. The 3010 Super-Adjustable allows 0° up to 80° tilt for aiming in even tight distances.

Die-cast adjustable gimbals with positive and negative aiming.

Precision machined baffles with solid die-cast rings.

Select wet location listed shower lights offered in die-cast or non-conductive and non-corrosive polymer trim rings with frosted glass edged lenses or regressed glass clear lenses.

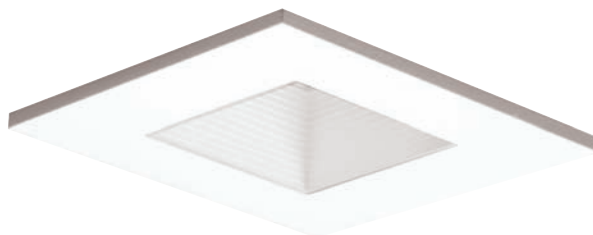

Locking screw on adjustable trims keeps aiming angle secure even during lamp replacements.

SQUARE REGRESSED LENS ADJUSTABLE BAFFLE SHOWERLIGHT

3012WHBB White with Black Baffle

3012WHWB White with White Baffle

3012BKBB Black with Black Baffle
