

## DIMENSIONS

## DESCRIPTION

The H1499T75 is a small aperture low voltage housing for providing accent and task lighting with up to 75W 12V MR16 lamps. The H1499T75 is designed for use in non-insulated ceiling or for insulated ceilings but insulation MUST be kept 3" from all sides of the housing.

### Housing

Formed of 20 gauge CRS with white powder coat finish.

### Plaster Frame

Housing is secured in plaster frame with spring barbs and can be adjusted in the plaster frame to adjust for different ceiling materials. The housing can be removed from the plaster frame to provide access to the junction box. Galvanized steel construction.

Plaster frame features include:

- Regressed locking screw for securing hanger bars
- Cutouts for easily crimping hanger bars in position
- Halo name embossed on plaster frame

### SLIDE-N-SIDE™ Junction Box

- Four 1/2" trade size conduit knockouts with true pry-out slots positioned to

accommodate straight conduit runs.

- Slide-N-Side™ wire traps allow non-metallic sheathed cable to be installed without tools and without removing knockouts. Accepts a wide range of non-metallic sheathed cable.
- Allows wiring connections to be made outside the junction box
- Simply insert the cable directly into the trap after connections are made.
- UL Listed for through branch circuit wiring (maximum 8 No. 12 ga., 90°C conductors).
- Accommodates the following standard non-metallic sheathed cable sizes:  
(US) #14/2, #14/3, #12/2, #12/3  
(Canada) #14/2, #14/3, #12/2

### Got NAIL!™ Bar Hangers

- Safety and guidance system prevents snagging, ensures smooth straight nail penetration and allows bar hangers to be easily removed if necessary.
- Pre-installed nail easily installs in regular lumber, engineered lumber and laminated beams.
- Automatic levelling flange aligns the housing and lets you hold the housing in place with one hand while driving nails.

- Housing can be positioned at any point within 24" joist span
- Pass-N-Thru™ feature allows bar hangers to be shortened without removing from frame.
- Integral clip snaps onto T-bars - no additional clips required
- Score lines allow "toolless" shortening for 12" joists.
- Bar hangers can be repositioned 90° on plaster frame

### Transformer

Integral 120V-277V dual tap magnetic transformer steps line voltage down to lamp operating voltage.

### Thermal Protector

Self resetting thermal protector deactivates fixture if overheating occurs due to improper lamping or misapplied insulation.

### Labels

- UL/cUL Listed for Damp Location
- UL/cUL listed for Feed Through
- IP Rated

## H1499T75

4" Aperture  
Shallow Ceiling  
12V Low Voltage  
75W Halogen Lamps

## RECESSED DOWNLIGHTING

- Non-IC Housing
- GOT NAIL!™ Pass-N-Thru Bar Hangers
- Slide-N-Side™ Junction Box allows wiring connections to be made outside the box
- Integral 120V-277V dual tap transformer
- Rated for up to 75W MR16 halogen lamps
