## **APPLICATIONS**

· Roadway and area lighting.

## **SPECIFICATIONS**

- Rugged die cast aluminum with a two door design allowing maximum ease in installation and maintenance. This large size roadway fixture is designed for 250-400 watt lamps.
- · Prismatic glass refractor or flat tempered glass lens allows a choice of refractor or full cutoff designs. A dense, self filtering, felt gasket seals both optical systems.
- · Horizontal lamp orientation with multi-faceted reflectors on cutoff designs provide no-glare illumination. Refractor units feature horizontal lamps as well, Type III distribution, field adjustable to Type II.
- Pulse-rated mogul base porcelain sockets with nickel-plated center contacts.
- Quad-Tap® or 480V ballastry, HPF, with quick connect to housing power door. Photoelectric receptacle standard. HPS - auto regulator, MH - peak lead auto transformer.

## LISTINGS

• Certified for use in wet locations. (UL)
