Notes

Type

application

- Versatile, aesthetically appealing recessed lighting fixture with a perforated metal diffuser creating a direct/indirect center light source for soft, even illumination
- An attractive alternative to standard recessed lighting or where indirect lighting is desired but ceiling heights are too low for pendant mounted fixtures
- Available with lamp and ballast combinations to fit your specific application

finish

- Prior to painting, all metal parts are treated with a multi-stage phosphate bonding process to ensure adhesion and inhibit rusting
- Painted with a lighting grade baked white enamel, having a reflectance factor exceeding 87% for premium quality and durability

construction

- The LIC series is a premium, recessed unit with heavy-duty construction for stylish long-term use
- Manufactured from New York City code (20 ga.) steel
- End plates are securely attached by rivets
- Ample knockouts are provided on back and sides for convenient installation
- Access plate is provided with two 7/8" KO and provisions for grounding
- All fixtures are U.L. listed and IBEW union made

electrical

- All electrical components are U.L. listed
- Electronic Class P, thermally protected ballasts standard
- Numerous options are available: see ordering information on back
- Optional battery backup available for one or two light emergency operation at various output levels; please consult factory for your specific emergency pack requirements

basket/reflector

- Reflector is constructed of high reflective non-yellowing matte white sheet aluminum for soft, indirect illumination
- Standard center basket is perforated formed steel with approximately 45% light transmission; optional patterns and aperture sizes are available; consult factory
- Basket is retained in fixture by four concealed studs for easy removal when cleaning or re-lamping
- Center basket also available in solid materials, custom colors; consult factory
