

Magnitude's M60L12DC-AR is the most compact LED driver on the market with a magnetic transformer core. It is equipped with auto-reset breakers, one on the input and one on the output, which protect both the load and driver. The driver is encased in a coated metal box that includes 2 knock-outs, one on each side, to enable easy installation that **complies with electrical code** requirements.

**Features**

- Two auto-reset circuit breakers
- Dimmable with magnetic low-voltage dimmers
- ETL listed
- CSA listed
- Class 2

|                              |                       |
|------------------------------|-----------------------|
| Max Load                     | 60W                   |
| Input Voltage                | 120 V 60Hz            |
| Input Current Full Load      | 760mA                 |
| Output Voltage Full Load     | 11.3V                 |
| Max Output Current Full Load | 5.9A                  |
| Open Circuit Output Voltage  | 12.8V                 |
| Efficiency                   | 78.8%                 |
| Power Factor                 | 0.84                  |
| Coil Former                  | Double Section Bobbin |
| Thermal Class                | B130°C                |
| Leads Primary                | PVC 600V #20          |
| Leads Secondary              | PVC 300V#14           |
| Height                       | 6.06"                 |
| Width                        | 2.5"                  |
| Depth                        | 2.2"                  |
| Weight                       | 50 Oz.                |
