**NTH-133LED**  
**Belgium™ Die-Cast Front Loading Gimbal**  
**with LED PAR38**  
 Lamp: 20W LED PAR38

**PRODUCT DESCRIPTION**

Line voltage front-loading gimbal fixture. Heavy die-cast construction provides superior strength, rigidity, and heat dissipation. Locking front ring protects lamp and enhances appearance. Front loading capability provides quick, easy lamp maintenance with minimal interference with original fixture aiming.

**FEATURES**

- Heavy die-cast construction
- Die-cast Lamp Locking Ring
- Fully adjustable, firm angle position
- High-strength stainless steel electrical contacts
- One or two circuit track capable
- Available in J-Style and L-Style

**CONSTRUCTION**

**Housing**

0.09" Die-cast aluminum two-piece housing with modernistic detail secured together with finished Allen-head screw. Two arms constructed from thick 0.050" die-cast aluminum extend from the housing and contain molds to secure 0.25" die-cast aluminum locking ring.

**Structural Arm**

0.10" "L" Steel bracket connects fixture housing to electrical contact head. Two finished plastic knobs allow user to lock fixture position to desired angles.

**Socket**

Porcelain jacketed aluminum screw thread medium-base socket.

**Wiring**

Teflon coated wire lead connects socket and housing to electrical contact head. Teflon coating is durable and resists heat degradation from lamp and housing radiation.

**Lamp**

See LED Lamp Chart below.

**Contact Head Assembly**

"H" Style (standard): Three 0.030 stainless steel contacts mounted in premium plastic housing.

"J" Style: Two contacts and ground contact mounted in premium plastic housing with on/off switch.

"L" Style: Two contacts and ground contact mounted in premium plastic housing.

**Finishes**

Black, Silver, or White heat-rated powercoat. Custom painting or anodizing for special applications are also available. Custom finishes will require lead times that vary depending on vendor schedule. Please consult factor for quotation, and provide either a Dunn Edwards number or color chip for exact matching.

**One/Two Circuit Conversion**

Positive contact (opposite neutral and ground contacts) is preset to "down" position at the factory, but may be raised to the high position to install onto the second circuit of Nora Lighting's NT-2300 series two-circuit track.

**DIMENSIONS**

Length: 6-3/4"  
 Diameter: 5-3/8"  
 Max. Extension: 10-1/2"

**Compatibility**

Nora track heads are compatible with Halo or any other brands configured to Halo 3 wire track configuration. J-Style and L-Style track adapters are available.

*Note: Fixtures may not be compatible with non-Nora monopoint adapters.*

**Labels and Warranty**

cULus Listed as track lighting fitting
