CANOPY STYLE SWIVEL LIGHTS FOR INDOOR AND DAMP LOCATIONS

Universally adjustable lighting that illuminates any setting with Swivelier's easy to install canopy style units.

Available in your choice of single, double and triple light configurations.

Use for general illumination, or spot lighting for accent, texture and highlighting. These versatile canopy lights let you light up merchandise displays, exhibits; as well as lighting under eaves of a house, or for use in any room.

5-1/8" diameter canopy, 7/8" deep fits standard 3" or 4" outlet boxes. Unit provided with mounting strap and pre-stripped wire leads.

Use with Halogen reflector PAR-14, PAR-16, PAR-20, PAR-30 (long or short neck), and PAR-38 lamps.

These fixtures operate on 120V current. For added safety all wiring connections are made internally to eliminate shock hazard. Medium base socket is rated 660W-250V.

Swivelier's patented spring tension swivel rotates a full 360° and angles 90°.

The swivel socket stays put without levers or set screws. A touch of the finger puts the light in any direction you desire for maximum flexibility.
