New Product Update

RedHead™ LED Retrofit Kits

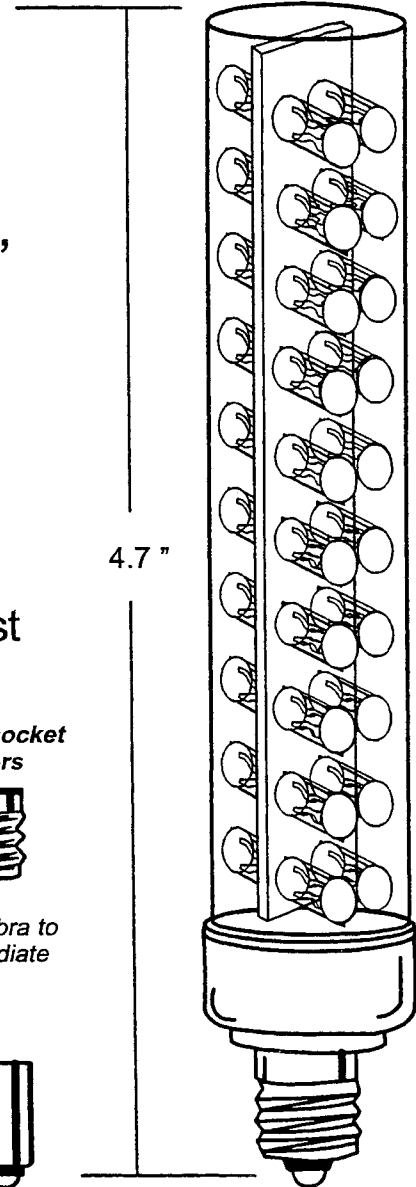

Now an even more compact design !

**Our 40 diode retrofit lamps are now 4.7" M.O.L.,
a full 3/8 of an inch shorter !**

Designed to retrofit into energy hungry, unreliable incandescent or fluorescent exit sign fixtures for years of maintenance free, low cost reliability.

RedHead™ retrofit kits combine low wattage, zero maintenance, and ease of installation with the latest in L.E.D. technology.

- Uses less than 3 watts per kit
- Use on single or double faced exit signs
- 219,000 hours average life
- Concave diode design diffuses light for maximum brightness and efficiency
- Patented swivel socket base allows for correct diode positioning

*Includes socket
adapters*

*Candelabra to
Intermediate*

*Candelabra to
bayonet*
